

The Headless Girl Kafr Aweed Massacre in Idlib Countryside

Incident details:

The peaceful, safe residents of Kafr Aweed town were surprised by the heavy government aviation flights around 3:00pm in Sunday, September 16, 2012, as the aircrafts rapidly and surprisingly dropped barrel bombs containing TNT explosives, as these explosive were used a lot recently as they are cheap, however, it is very random and cause mass destruction but this is the least of the Syrian regime concerns, even seems to be the least of the human rights organizations concerns as well as we haven't heard any condemnation for the government forces (Army, Security, Shiites foreign militias) use of thus brutal weapons.

Government air crafts dropped 7 bombs one of them targeted the town bakery as these bombs immediately killed 10 civilians from Mighlaj family including Mrs. Dalal Al Issa, the 10 civilian victims included 4 women as no less than 120 were wounded and about 20 houses were destroyed.

SNHR team documented according to the testimonies of the eyewitnesses through direct communication with them, through it we were able to obtain the names of the victims as they sent us all the details, images, and videos over our official E-mail and Skype, as no one of our team managed to get to Kafr Aweed town and examine the situation on the ground and take photos and videos by our special cameras due to the difficulties in movement and getting there.

Here at SNHR as a human rights organization that concerned with defending human rights we firmly condemn this horrific massacre that is a crime against humanity with all the massacres that the Syrian people have suffered around the clock as well and we hold the Syrian government along with the Army Commanding Chief Bashar Al Assad fully and completely responsible for the massacre and its consequences and reactions, also Iran, Russia and Hezbollah are also held responsible for the ongoing killing and supplying the Syrian government with weapons and money, as we also ask the Security Council and United Nations to work in full speed to do what can be done to protect the civilians in Syria, and to shoulder its morale and legal responsibility and speed up the steps against all involved in these massacres to the International Criminal Court.
